## greene gramily camp

## Summer 2021 Water Boffle Policy

This summer, we ask that you pack two dishwasher-safe water bottles for each camper. Over the summer, water bottles will be washed a few times each week! Please ensure that water bottles are labeled with your camper's name, have a covered moviliples, and down include inserts such as straws or removable moviliples. We know that this policy is more strict than it has been in previous years, but increased sanitation is important to our COVID-19 prevention plan.

During the month of April, we will be selling Summer 2021 exclusive water bottles that meet this guidelines. The water bottles will be available for purchase online.

## Do not bring:

This bottle has a removable, uncovered mouth piece and a straw.

This bottle has a removable, uncovered mouth piece

This bottle has an uncovered mouth piece
